

# DEAR VALUED MEMBER MANAGED CARE SERVICES TRANSITION ON 1 APRIL 2026

At Namibia Health Plan (NHP), everything we do begins with one simple truth: ***We're about you.***

This isn't just our motto: it is the heartbeat of our Fund and a promise made to you.

Today, we're excited to be bringing you something that is driven by our passion for your health - **a transformational change in our service provider partnerships.** It's a bold step designed to bring you stronger healthcare management, improved health outcomes, and a more sustainable Fund for generations to come.

This decision follows an extensive review of our current systems and member health outcomes. NHP is thus proud to be **the first medical aid fund in Namibia to take such a decisive, future-focused step.** This courage to innovate has always distinguished NHP and today is no exception.

## Why this change?

Because *you* deserve it!

*You* deserve healthcare management that supports better health outcomes.

*You* deserve a Fund built not only for today's needs, but resilient enough for tomorrow's challenges.

Simply because ***"we're about you"***.

## The NHP Team
